

NCMD thematic reports: proposal form

Please complete this form as fully as possible – your responses will provide NCMD with an overview of the rationale supporting your topic proposal.

Completed forms should be submitted electronically to ncmd-programme@bristol.ac.uk by **30th April 2025**.

1. **Title of topic:**
2. **Name and job title of proposer:**
3. **Organisation of proposer:**
4. **Email address:**
5. **Overview of proposed topic** (e.g. please provide a summary of the essential features of the proposed topic; including aims, objectives, and opportunities for quality improvement if this topic is selected):
6. **Background and clinical context of the proposed topic.** (Include incidence / prevalence of the condition(s), its impact on children and families; and its impact on the NHS and / or social care organisations.
7. **Relevant data.** Are you aware of any other work on this topic? How will this study enhance or add to the body of work that has already been completed?
8. **Alignment with policy direction.** How does the project sit with current policies and political direction? How does it relate to current topics in the public arena? Is public interest formalised within recognised organisations? Consider how this relates to all relevant policy areas not just health.
9. **Key stakeholders.** Which groups constitute the key stakeholders for this topic?
10. **Any other information you would like to add.** (Please add any further information you think would be useful in the assessment of your topic proposal. This may include the potential risks associated with this proposal.)
